Worrying Christianity

—ARTHUR BRISBANE—

LOUIS TIERSON of New York, Irving Trust Co. delinquent burglar. He built, far below his new history, a safety vault lined with steel, thick as the ancient walls of Jerusalem. It is the biggest vault in the world except the one in the Bank of England.

Surrounds his steel walls with a layer of water, so that the burglar, even if he did break through the heavy steel, would sink in a diving suit, and be drowned for handling dynamite.

Political news deals with an important row in the Republican caucus in the Senate to the Republican tariff program. Hoover touches the red line in a weak spot, asking why they don't work together. The world is built for peace.

The government asked "permanently" of Great Britain to build one ship which would equal the British navy, the greatest nation in the world.

British authorities said no, and they think we plan to build one of all dreadnaughts, a "superbattleship."

There is no such ship, not the danger of our building anything more than next class tanks and submarines.

There are fortunate that British authorities, to which we would like to tell us we can't spend money.

RUSSIAN priest newspaper, called "The Golden One," says that very church is closed, and church parades by "The Golden One" demands "Cathedral of Our Saviour in Moscow, Russia's biggest church, be used for workers' religious purposes."

There is more news from the Saint-Chapelle in Paris, where the vast dome of St. Peter's dome would emerge from the entire centers that they can establish. You can't create a religion.

It is not like Russia, Newton has learned the lesson, after years of study, is unable to count the gods of the world.

There is a report from India that the British are unable to count the gods of the world.

DRIVE FOR DRY LAW CHANGE LAUNCHED HERE

Canvassers for Modification League Start Circulating Petitions Today

ASK FOR WINE, BEER

Marion To Be Headquarters for Campaign in Congressional District

While prohibition and its enforcement is keeping Washington, the national capital, stirred up, Marionites will be given an opportunity to express their opinion as to whether the Eighteenth amendment should be modified.

Petitions of the Congressional Districts Modification League, by which that league hopes to eventually bring about modification of the Eighteenth amendment to the point where manufacture and consumption of beer and light wines of moderate alcoholic content under government supervision will be legal, are being circulated in Marion this afternoon by workers of that league.

The canvass started today and will continue until all voters of the city are solicited, it was stated.

Organizer's Explanation
It is the aim of the workers to obtain signatures of 50 per cent of the voters of this city and district, according to Jack O'Keefe, state organizer for the league, who was in Marion this morning making plans for the drive for signatures.

After the work has been completed in this district the petitions will be presented to Congressmen Grant E. Mouser, Jr. to a sufficient number of signatures has been obtained, as well as support in the movement to make light wines and beer legal.

Seven men were to begin work in Marion this afternoon to obtain signatures. Marion will be the headquarters for the drive in this, the Eighth congressional district, O'Keefe said. The local workers expect to spend three weeks in this city.

Twelve states have been entered by the workers of the league, and in these states approximately 70 per cent of the men voted and 40 per cent of the women voters have signed, O'Keefe said. The northern half of this state has been covered in the drive, according to O'Keefe.

Sturges Adopted
"We believe in temperance, not prohibition," is the slogan of the league, O'Keefe said, explaining that temperance means light wines and beer under government supervision, will not the bootlegger and close the speakeasy and keep the liquor trade out of the country.

This position which is being carried in this city, asks countries through the correspondence, to make the modification of the Eighteenth amendment, the petition claims the Volstead act does not have the support of the majority of the people, that it is costing millions of dollars and causing prohibition to become the main political issue, that it is class legislation and has created contempt for law, that it has increased the death rate because of bootlegging, and that it violates the constitution.

Urgent Outright
Repeal of Law
WASHINGTON, Feb. 19.—Advocating state instead of federal control of the liquor traffic, spokesmen for the leading anti-prohibition organization of the nation proposed outright repeal of the Eighteenth amendment to the house judiciary committee today.

The witnesses called before the committee at the resumption of its "modification hearings" included representatives of "this business," writers, physicians and officers of the Association Against the Prohibition Amendment.

Rep. H. H. Starnes, chairman of the association against the prohibition amendment, declared for repeal of the Eighteenth amendment and return of control of the liquor traffic to the states.

Repeal, he said, should be delayed long enough to give the states time to enact prohibitory laws. Dry states also should be given time to prepare for the repeal of the liquor traffic from wet states, he said.

Woman Killed as Car
Wrecks Near Mansfield
MANSFIELD, Feb. 19.—Mrs. Wm. G. Herold, wife of a prominent local insurance agent, was instantly killed today when the automobile in which she was riding skidded into a roadside ditch and overturned on the wheels.

Mrs. Herold and her husband were driving to Akron to visit their son. The woman's husband escaped serious injury.

21 BLIND YEARS PIERCE DARKNESS

Sightless Senator Schall Declares He Would Not Trade His Understanding for All Eyes in World

WASHINGTON, Feb. 19.—The understanding that has come with 21 years of darkness is worth more than all the eyes in the world—that and the compassion and understanding of his wife, Margaret, Thomas D. Schall, the blind senator from Minnesota, told radio listeners today in an address to the National Homemakers' club.

"Sympathy? Yes, but who is to help? We want acknowledgment of merit," he said. "It is not how well you can see, but it is the depth of your vision, the soundness of your judgment and the depth of your understanding of the human heart that counts."

Senator Schall, said the first thing he learned when he lost his sight was that he was not alone. "I worked along in darkness, a good deal harder than I had turned to page 5."

TAX QUESTION UP AT SESSION

Industrial Commission Probe Also Before Manufacturers' Meeting Here Today

75 IN ATTENDANCE

Prominent State and National Factory Leaders Assemble at Hotel Harding

More than 12 industrial leaders representing 12 central Ohio counties were here today for a meeting of the Manufacturers' Association of Central Ohio.

Two important questions were to come up for discussion by the association at a general meeting to be held this afternoon following a luncheon at the Hotel Harding. Phases of the taxation problem and the study being made by the Ohio Chamber of Commerce into the methods of operation of the state industrial commission were to be taken up at round table discussions.

The only formal address of the meeting was to be given by Charles V. Truax, of Bucyrus, former director of agriculture of Ohio. Truax has been allotted 15 minutes in which to address the group.

C. D. King Presides
C. D. King, vice president of the Marion Steam Ship Co. and a member of the board of directors of the manufacturers' association, was scheduled to lead the discussion on taxation. It was stated before the meeting opened that several phases of the tax problem as they relate to industrial plants were to be considered. King will preside at the discussion in the absence of William Pfeiffer, Jr., of Akron, president of the Miller Rubber Co., who was unable to be present today due to negotiations for the consolidation of the Miller and B. F. Goodrich rubber companies.

The discussion of taxation here today may have some bearing on future tax laws of the state, as King is a member of Gov. Myers V. Cooper's taxation investigation committee.

Possible Discussion
The discussion of the Chamber of Commerce's study of the industrial commission and workers' compensation was to be led by C. F. McCormick, president of the Ohio Locomotive Crane Co. of Bucyrus. Although officers of the manufacturers' association were unable to state what trend

PRISONER WED
Man Who Has Admitted Robbery Married in Sheriff's Office

PORTSMOUTH, Feb. 19.—David T. Roberts, 32, who is being held here for the authorities of the county, was married today in the sheriff's office. He is charged with robbing the Delta Electric Co., near Spencer, sentenced himself for life here yesterday.

Mrs. Myrtle Perry, 31, also took the life sentence. They were united in marriage in the sheriff's office, by the jail chaplain.

The bride will go to work and await her husband, who authorities say, has admitted the robbery of the bank on Feb. 1, of \$2,000, and is willing to return to Erie county and "make his medicine," so he may start life anew.

Large Staffs With AP

Some 60 Bureaus Scattered About U. S. and Possessions; Newspapers Aid in News Collection

THE Associated Press, which will serve The Marion Star, beginning next Monday, with its full telegraphic service, has approximately 60 principal bureaus scattered throughout the United States and its possessions.

In each of these bureaus the newspaper staff varies from a single writer to as many as 50 in the large centers of news activity.

In all of the principal capitals of Europe, Asia and South America, similar bureaus are maintained, staffed with one or more reporters, editors, and correspondents.

These bureaus also have individual correspondents scattered through the less important cities of the countries, who report directly to the bureaus which act as a clearing station in forwarding the news to the United States.

For example, there are bureaus located at Peking and Shanghai in China and at Managua, Cordoba, or Santiago, in Central America. In Constantinople to the larger bureaus of London and Paris, with 10 staff men each.

CRISIS FACED IN OPERATION OF C. M. & B.

Spend \$20,000 on Improvements or Quit Business, Is Whysall's Advice

SENT TO BONDHOLDERS

Critical Situation Disclosed in Letter to Bucyrus City Council

Eastern capitalists holding bonds of the Columbus, Marion & Bucyrus Railway Co., which operates the interurban line between Marion and Bucyrus, have been advised to either abandon the road or spend \$20,000 improving the property, particularly the line within the city limits of Bucyrus, according to a letter filed with Bucyrus city council last night by George Whysall, of Marion, president of the company.

The letter was filed with Bucyrus council after that body had recently directed to fence the franchise of the railway company unless it rebuilt and repaired a sewer at its place between Marion and on either side of its tracks on Marion st. in Bucyrus, in connection with a street improvement program of that city.

George Whysall, president of the company, was in Bucyrus this morning and could not be reached for a statement. It is understood, however, that he has received no reply from the bondholders of the company in regard to his recommendation.

Mayor Outlines Plans
Mayor Arthur Schuler today told a representative of The Star that the improvement of the pavement on a half mile strip of Marion st., which was begun last fall, would be renewed as soon as the weather permitted, and that the city intended to build the entire street, including the interurban tracks, unless the railway company began to rebuild its lines and pavement between and on either side of the tracks by the time the work gets underway.

The city, of course, would mean forfeiture of the franchise between the city and the railway company, which provides that the company, within 30 days after notification, must complete with the city in building new pavements on which the company operates its lines, according to Mayor Schuler.

Partially Torn Up
Marion st. in Bucyrus, is now partially torn up, and no traffic other than the interurban is passing over it. Mayor Schuler stated that the work last fall was interrupted by an unusual weather and failure of the C. M. & B. Railway Co. to do its portion of the work as specified in the franchise.

The city engineer was authorized to continue with his work in preparing plans, specifications, and other data to improve the street.

Mayor Schuler stated that action must be had from the railway company by April 1, which time he hopes to see the paving work progressing.

TOWNS ENDANGERED AS BIG DAM BREAKS

Earth Retaining Wall in Course of Construction Releases Tons of Water

COLUMBIA, S. C., Feb. 19.—Releasing tons of water to rush down a valley, endangering a number of river towns, Tullahoma dam, seven miles above here, broke today.

Greatest danger was feared for New Knoxville, a town just across the Coosa river from Columbia.

The dam, a \$2,000,000 project of the Broad River Power Co., was in the course of construction, and was the largest earthen dam in the world. The dam was only about three-quarters finished.

The cause of the break was not determined.

Steel Production Makes Gain; Momentum Lost
PITTSBURGH, Feb. 19.—"Steel production has made a further slight gain, but has lost the momentum that caused it to rise so rapidly in January," the weekly summary of The Iron Age magazine, will say tomorrow. Unsettled demand, especially from automotive, steel, little change in industrial requirements and support from the railroads and heavy construction fields feature the week, according to the summary.

Scheel, Samuel, Goldstein and other steel celebrities.
Gov. and Mrs. C. C. Young, of California, were scheduled to accompany the distinguished visitors on the trip today.

Ohioans Are Baffled by 3 Complicated Mysteries

By International News Service

THREE complicated mysteries confront Ohio authorities today.

All of them have been baffling to "standing still" for the week, as far as solving them is concerned.

Ohioans have become extremely interested in the three cases, the alleged murder of Melvin Horst, the disappearance of the body of M. T. Hoff, an African, Jan. 15.

Eighteen-year-old Lola Long, daughter of Mr. and Mrs. Sam Long of Suburban Springs, Cleveland, disappeared from the home of M. T. Hoff, an African, Jan. 15.

Michael Kovachuk of Camp Hill, a sophomore at Ohio University, lost his room Feb. 11 and has not been seen or heard of since.

For 11 months officials have been baffled at the disappearance of the man, but only at night, but all night, if necessary.

Officials informed International News Service that they are confident Hannah can clear up the mysterious disappearance of the Cleveland lad if he will do what he, yesterday, advised the other suspect in the case, Earl Connel—"Come clean."

Hannah is facing the rapid-fire barrage of questioning as a suspect in the case. He had, up until a short time before noon today, made no further admission of any kind.

Connel is enjoying a most-welcome respite from being grilled by officials. They decided to leave him alone in his cell at the jail today, unless some development should necessitate a change of tactics.

That Junior Hannah, 19-year-old son of one of the men who are being held in connection with the Horst-Horst case, may know more about the alleged killing of Melvin Horst, indicated by officials, who indicated that Junior may be more fully questioned again soon.

Belief Held That Pair May Be Shielding Third Man After Conference

WOOSTER, Feb. 19.—Holliday told Charles Hannah, if he will tell the complete story of the disappearance of four-year-old Melvin Horst at Wooster, 11 months ago, investigators in the case are concentrating on him today.

Not only is Hannah being subjected to an unmerciful grilling, but authorities announced they will continue the strenuous questioning of the man not only all day, but all night, if necessary.

Officials informed International News Service that they are confident Hannah can clear up the mysterious disappearance of the Cleveland lad if he will do what he, yesterday, advised the other suspect in the case, Earl Connel—"Come clean."

Explosion of Naphtha Gas and Fuel Oil at Cleveland, Ohio, Resulted in 10 Dead and 53 Hurt in Blast

Inquiries into New Jersey Oil Refinery Explosion Is Begun

OTHER DEATHS EXPECTED

Flaming Naphtha Fumes and Blazing Alcohol Envelops Plant

ELIZABETH, N. J., Feb. 19.—Four inquiries were opened today to officially determine the cause of an explosion and fire at the Bayway refinery of the Standard Oil Co. of New Jersey in Linden, in which 10 men were killed and 53 other workers were injured.

Explosion of naphtha gas and fuel oil, a large tank of which was struck by a large tank of alcohol, started the company's alcohol experimental building, which was covered with stores of liquid flames, yesterday afternoon. Several of the plants around here and many may be damaged for life, the company said.

Working on Building
Most of the victims were among carpenters and laborers working on a building under construction adjoining the alcohol plant.

The first explosion was believed to have torn loose naphtha pipes leading in the alcohol laboratory. Two more explosions of huge alcohol tanks followed, and in an instant the flaming naphtha fumes and blazing alcohol exploded to make a thousand tongues of fire that burst forth and enveloped the plant.

Many workers were burned, and the fire was so intense that it was feared that the entire plant would be destroyed. The fire was finally brought under control by the fire department.

Washington's Escape from British Plotters Will Be Enacted Over Radio

New Organ at WCCO To Be Heard in Request Program

THIS story of George Washington's escape from a ring of British spies will be presented for the first time over the air on Wednesday night, three days before the celebration of his birthday when the Philco Hour is broadcast over the Columbia network as 10 o'clock.

For biographies of Washington mention the dramatic escape of the general from death at a time when the fate of the nation hung in the balance. A full and official report of the matter was never made, although research through private correspondence of the time reveals the truth of the incident was generally known. It is made available to the radio audience by the work of Major C. E. Russell, army intelligence chief during the war and authority on espionage and counter-espionage, whose interest in the spy throughout the ages brought it to light.

The plot of British officers in the mind of Governor Tryon and Major David Matthews of New York. It was planned to reach Washington through some of his bodyguards, but the scheme was overheard by John Honyman, one of Washington's most trusted aides. Honyman slipped through the American lines, made arrangements to turn the plotters, and then returned to the British lines to insert himself into the scheme. He was successful in his efforts, and it is

said that more than 40 conspirators were caught and paid with their lives for their part in the affair. During the plot was Russell was one of the six commanding officers of military intelligence units overseas, being present in London, he is said to have been among the first to demand as a speaker. Prior to his appearance on the Philco Hour he will address several American Legion groups in New York City.

Lois Bennett, prima donna of the hour, will be heard during the broadcast as well as Henry M. Wood, Philco's "Old Stager." William Arta will conduct the Philco orchestra.

NEW ORGAN TO BE HEARD

COMPLICATIONS entered the Senior Sunday School cage league last night and before the old gentleman could be given a one-way ticket through the back door the Waldo quintet has lost its first game in eight starts.

Starting off the second round, games last night found but one change being made in the lineups. That one change, however, affected the most important teams for today. Christian No. 1 and Waldo are tied for first place.

Christian No. 1 opened up the series with Waldo last night by winning, 32 to 12. In the first start this year Waldo won. No other quintet in the league was able to defeat the two aggregations in the first round and if the performance are repeated in the last half the race will end in a tie for the lead berth.

Vic Gillis was the shining light of last night's battle scoring more than enough points to defeat this Waldo aggregation. He hit the nets for 18 threes. Conwell led the Waldo five with seven points. At the half the Christians led, 14 to 8.

Epworth was another contest last night but it came after a close call. The Methodist first downed Christian No. 1, 11 to 9. Epworth No. 2, 14 to 10. Trinity, 21 to 11. Presbyterian, 25 to 11. Christian No. 2, 25 to 11.

Arrival of Art Shires Awaited at Chisox Camp

SAN ANTONIO, Tex., Feb. 19.—Things about the spring training camp of the Chicago White Sox are practically at a standstill here today as the arrival of Art Shires (The Great) Shires is eagerly waited.

One of the chief subjects of debate is when and if the spectacular first baseman of last season will put in an appearance.

Although he is reported to be assembling a uniform at his home in Italy, Tex., 250 miles from here, it is known that he has not yet signed a contract for 1930.

Hardin County Residents To Hear State Speakers; Program at Mt. Zion

KENTON, Feb. 19.—Two farm institutes are to be held in Hardin county during the present week, according to announcement. One opened today at the Dola high school, northwest of here. The other will be held at the Mt. Zion church near Jumbo, southwest of the city, Feb. 21 and 22.

State speakers at Dola include A. P. Moon of Conover, and Miss Ella M. Haas of Clayton. Speakers at Mt. Zion are Mrs. Paul R. Maxwell of Burlington, and A. P. Moon, of Conover. Displays of farm produce and of products of schools in the communities have been arranged as additional features. Awards will be given the winners.

Cleveland Rosies Head West for Bruin Series

SANDUSKY, Feb. 19.—Cleveland's champion raggers were enroute to Chicago today to open a crucial four-game series with the Bruins tonight after having stopped off here and defeated the Sandusky Reds 28 to 30 in an exhibition game last night.

The Cleveland outfit, which slumped in four games in a row last week, has apparently regained its stride and is now determined to overtake the Rochester Centrals who displaced them as league leaders.

Western Reserve Matmen Give Kent State Beating

CLEVELAND, Feb. 19.—Showing a reversal of form over its performances of last week, Western Reserve's wrestling squad trounced the Kent State Normal grapplers 29 to 5 here last night. Kent gained only one win and that was on a forfeit in the 145-pound bout.

The Red Cats lost meets with Rochester A. and M. and Syracuse last week.

GATE FOR MIAMI GO EXPECTED TO GROSS LESS THAN \$300,000

Press Boys Becoming Fretful as Nothing Happens Day After Day

BY DAVIS J. WALSH

NEW YORK, Feb. 19.—One of the greatest 24th crowd in history will be in Miami one week from tonight—and, about about, following Monday, a lot of them probably will see Sharkey fight Scott in the movies.

Hardy wayfarers, being just a little late in their ways when it came to eating, began to arrive in town today from the scene of the great struggle and the above is essentially the story they told. They said there was plenty of them in Miami but that most of them had found travel so bumbling that they decided to walk in from the end of the last street car line; that is, everything was going to be all right with them as soon as they found a good, reliable place to print their money.

The gate, it was estimated, wouldn't beat \$300,000 and might be no higher than \$275,000, at which figure the Garden people will get out with a modest profit. A modest profit usually is something you put in the sweat hand of your hat, along with that letter from Irene.

They also say that Sharkey is in a high dudgeon at Mr. James J. Johnston, the manager of Scott, and may take a swing at James at almost any hour of the day or night. It is a thing that ought to be a health resort, if Sharkey takes a swing at James, there will be one more visitor to Miami who won't see the prize fight. It seems that James keeps burning Sharkey up by referring to the latter as a big bum and using other well worn terms to express the same thought and, of course, that isn't right. Sharkey himself will tell you that he isn't as big as he looks.

Anyhow, James is taking the surest way of losing this prize fight. All you have to do is kick him sufficiently and Sharkey will go out and lick the Coldstream guards in toto.

Few are giving Scott a chance, as it is. They say Sharkey looks like a million dollars in a show window and that Scott won't win five rounds, which may be only another way of saying that Sharkey might have to win in a hurry or not at all. For if Scott goes five rounds, he is liable to go 15 and, if he goes 15, it isn't altogether unlikely that he will win the fight.

Meanwhile, the press boys are beginning to feel that something is happening down there one minute after another. They have found themselves unimportant to the matter of writing lurid lyrics about the two gentlemen who are striving so earnestly out there in the sun and, in consequence, the Garden people are becoming a bit fretful themselves. They are not complaining, you understand. They simply think that somebody ought to start writing lurid lyrics about the two gentlemen who are striving so earnestly out there in the sun.

The misunderstanding is all over a matter of definition. The Garden people put this thing on as something of a junkie and, being business men, they just don't understand. A junkie isn't something you eat in the morning. It's something you do at night.

Cleveland Club May Open Season Without Fonseca

NEW YORK, Feb. 19.—Like a team without a captain, the American League will open its 1930 campaign minus Les Fonseca of the Cleveland Indians, its leading champion, according to present indications.

At the crest of his long career of 11 years duration, Fonseca, who is only 30 years old, finds himself in such woeful physical condition that he may not be in harness when the robust voice of the umpire howls "Play Ball" on April 15. Although Fonseca has already triumphed over old man scarier fever in California, doctors' orders prevent him from unwrapping the bed sheets for at least another three weeks, and if the medicines are given their way Les will probably remain in a health resort until May. A release might mean the end of Fonseca's playing days, so serious is Les's condition.

Fonseca shot to fame like a streak last season when he came from behind in the path of a dark horse to completely outscore Al Simmons and Jimmy Fox, both of the champion A's and Marvyn of the Tigers for the hitting gong. Les's spontaneous rise from third position to the batting championship wasn't the result of just a sport though. It was the result of eleven years of preparation.

Caldwell, who hit safely 214 times, included in which was twenty-nine two sack wallops, ten three baggers and forty-one homers, aggregating an average of .347 for the New Haven Eastern League team last year, is one of the Clevelanders who will take part in the scrap for Fonseca's post if Les is missing at the start. But whoever does replace Les—if he is replaced—the big "Luján" machine is not going to function on four cylinders until Fonseca is taking his regular cut at the plate. He is not only on the list of "indispensables" but on the list of "irreplaceables."

At West Palm Beach—Louis Gonzales, Tampa welterweight, defeated Jimmy Smith, New York (10).
At St. Petersburg—Big Jeff Carroll, Florida heavyweight, defeated Bert Finch (10).

At Allentown, Pa.—Al Brown, of Panama, world's bantamweight champion, defeated Johnny Cannonier, New Jersey (10).

IOWA FARMER BOY FACES ROUGH MOVIE STAR IN MAIN GO

Arrangements Being Completed by Promoter for Card at Shovel Gym

BY DAVIS J. WALSH

NEW YORK, Feb. 19.—The late Pat Moran who used to manage the Cincinnati Reds, was the first to spot the potentialities of Iowa while Les was on the Pacific Coast. Les, who alternated at first and second base and the outfield, played a fair sort of game for the Reds. In 1924 the Reds bought him and even though he lasted 1933, he was sent to Newark of the International League the following year.

There the first sign of Fonseca's dormant possibilities loomed when he smashed the muzzles for an average of .381, collecting 267 hits. The year later, 1927, found Les back in the majors with the Cleveland Indians, having been purchased for a reported price of \$200,000.

Low batted .311 for the "Indians" that season and his for 1927 in 1928 and 1929 last year, leading the circuit.

Roger Peckinpaugh, mentor of the Indians, may find himself in a tight spot should Fonseca remain on the hospital list long. Cleveland will be out for an entire season lead in April with such youthful promising material as Earl Averill, Willis Hudlin, Wesley Ferrell and Bruce Caldwell, ex-Yale football hero, among other brilliant players, on hand, and if Fonseca is not included in this roster for many a game might be lost that otherwise might be safely stowed away.

Caldwell, who hit safely 214 times, included in which was twenty-nine two sack wallops, ten three baggers and forty-one homers, aggregating an average of .347 for the New Haven Eastern League team last year, is one of the Clevelanders who will take part in the scrap for Fonseca's post if Les is missing at the start. TWO PLAYS GIVEN BY MIMES CASTS

Minuet by School Girls Also in Program; Plans Made for Annual Election

The first step in the organization of the Marion Mimes for their second year of activities was taken last night when members of a nominating committee were appointed from the floor during an intermission between plays at Central Junior High school auditorium.

Walter W. Weber, president, was in charge of the meeting. The resignation of Murray Powers as first vice president and production manager was read and accepted.

Named on the nominating committee were Mrs. Paul Knappe, Mrs. Miss Hattie Hays, Mrs. Wilson L. Tway, Murray Powers, and George Kratz.

"Dulce" was announced as the public production for April, with Mrs. Tway as director.

Two plays were given, a drama and a French farce comedy, and between the plays, four girls from the physical education department of Harding High school gave a costume colonial dance.

Miss Hazel McAfee, director of girls' physical education at the high school, announced the dancers.

Those taking part in a play directed by Miss Mildred Crow were Miss Mary Hefner, Miss Marion Gilmore, Mrs. Queen, and Charles Elchert. Miss Lillian Lutz and Miss Helen Van Meter assisted Miss Crow in collecting properties and as prompters.

A farce comedy, set at a French watering resort, was given by Miss Marion Bush, Rodney B. Hume, Marion Cole and Walter Sage.

Misses Donna Hiker, Mary Williams, Ella McNamara, and Martha McGee danced the minuet, with Miss Edith Brown at the piano and Miss Dorothy Pace at the violin. Two of the girls were dressed in the costumes of men and two in women, at the time when George Washington danced to the steps of the minuet.

"MAN IN GREEN HAT" ARRESTED IN CAPITAL

Senate Advocates Cite Action as Need for Dry Enforcement Inquiry

WASHINGTON, Feb. 15.—The arrest of George Cassidy, the "man in the green hat" in front of the senate office building on charges of bootlegging, was cited today by senate advocates of a prohibition inquiry as another reason for investigating dry law enforcement.

Senator Wheeler, (Democrat) of Montana, who sponsored a resolution for a sweeping senatorial inquiry into all activities of the prohibition bureau, declared the actions of the "Man in the Green Hat" ought to be investigated. Senator Jones, (Republican) of Washington, said that the "five and ten" law, went further and said the senate ought to learn "who" Cassidy intended to see in the senate office building. The structure houses the private offices of senators and their hundreds of clerks.

"This episode ought to be the subject of a senate inquiry," said Wheeler. "It is one more reason why the senate ought to investigate prohibition enforcement and its enforcement."

"There is evidently something wrong," said Jones, referring to the fact that Cassidy has twice been arrested in front of the senate office building. "It ought to be brought out, if possible, why he was going here and whom he intended to see."

Sues for Divorce

Suit for divorce has been filed in common pleas court by Maude Verline McFadden against George E. McFadden. The plaintiff charges gross neglect of duty and asks for the custody of the minor child. According to the petition they were married in Cleveland, Oct. 10, 1927. The plaintiff is represented by Attorney Louis E. Myers.

In an answer to a divorce suit filed in common pleas court by Martha B. Bushman against John M. Bushman, the defendant asks for the dismissal of the petition. The law firm of Dornan & Donahue represents the defendant.

Father Fined

Jack Miller has been fined \$5 and costs in probate court on a charge of contributing to delinquency of his minor children. Evidence introduced at the hearing indicated that Miller directed his two children to take coal from cars on the Erie railroad right-of-way.

Named Administratrix

Hazel Mae Copen has been named administratrix of the estate of Mary A. Ames. The appointment was made today in probate court.

BLAME COMMUNISTS

Score of Others Hurt in Disorders at Southern Ohio This

BELLAIRE, Feb. 15.—Communist who have been active in the Pottawatomie mine district for the past few months, today are believed by county officials to have incited the disorders yesterday at the Pottawatomie mine in which a score of miners suffered cuts and bruises.

The Belmont county common pleas court gave Sheriff Ford Moore permission to employ 25 special deputies to patrol the Stewart and Pottawatomie mine districts, where strikes are on against the reduction of wages.

JURY ADJOURNS

BUCKEYE, Feb. 15.—Because the court room was being used by the jury, the January term of grand jury, in session Monday and Tuesday, adjourned Tuesday night until Thursday. The grand jury used the examiners' room on the third floor during their two days in session. Ten cases are being considered by the jury.

ELECTION HELD BY ODD FELLOWS BAND

R. E. Caylor Named Business Manager; Busy Schedule Ahead

The Odd Fellows band, a musical organization of Kinswood Lodge No. 25 Independent Order of Odd Fellows, met last night in the I. O. O. F. rooms on North Main st. for reorganization.

R. E. Caylor was named business manager of the band. George Portenfield was elected musical director and George M. Laughman, drum major, secretary and treasurer.

Half a dozen out-of-city engagements have been booked for the next six weeks, with as many local engagements in sight, according to Secretary Laughman.

There are now 35 names on the roster of the band, which rehearses each Tuesday night.

CHANGES PLEA

Patterson St. Man Fined \$250 on Liquor Possession Charge

O. S. Clingerman, 36, of 224 Patterson st., yesterday pleaded guilty to a charge of illegal possession of part of a still and mash for the manufacture of intoxicating liquors. He changed a former plea of "not guilty," made when arraigned in municipal court on the charge yesterday morning.

He was fined \$250 and committed to jail until the fine is paid.

With his plea of guilty on the docket, police officers released O. W. Long, 27, who was arrested with Clingerman when police raided 224 Patterson st. Monday night. Long professed to be a barber at the Clingerman home.

MARION OFFERS SITE TO GET FORD SCHOOL

Telegram Sent Auto Magnate by Local Chamber of Commerce

One of Henry Ford's proposed schools for the training of young men along specialized lines may be located in Marion as a result of recent activity of the Marion Chamber of Commerce.

The Chamber of Commerce in a telegraphic communication with Mr. Ford at his Florida winter home offered free a site for the erection of a school here. In a recent announcement Mr. Ford stated that he would devote the remainder of his life to the promotion of the school idea. He also stated that he would spend approximately \$100,000 on the project.

In the telegram to Mr. Ford the Chamber of Commerce pointed out that Marion was ideally located for such a school, being an industrial center as well as being on important rail and highway routes.

DITCH VIEWED

An extension of the proposed Beaver Run ditch in Marion and Union counties was to be viewed by the boards of commissioners of the two counties today. The extension

was petitioned for by C. L. Winsett of Prospect township.

AMERICAN ORIENTAL RUGS

We invite you to visit our Rug Department and see the new Creations in Gulistan Rugs and Whittall Anglo Lustre Rugs.

Anglo Lustre Rugs

Whittall Anglo Lustre Rugs have a permanent brilliancy of colors. Silky lights and shadows have been caught and held in these new Rugs by complete new developments in spinning, weaving and dyeing. The seams, the best assurance of long wear now known are so concealed in this fabric that you cannot see them on the face. These rugs have the appearance of the lustrous Carpets of the Orient, yet at a fraction of their cost.

9x12 ft. Size \$185.00

Other sizes priced accordingly.

YOU WILL FIND OUR DISPLAY UNUSUALLY FASCINATING. YOU'LL MARVEL AT THESE LUSTROUS RUGS.

Gulistan-De-Lux Rugs

These sheen type Rugs are in every respect the same as orientals save for the fact that they are loomed by machine instead of knotted by hand. They are made of picked Oriental yarns, dyed with the finest colors, sheen finished and the designs are those of Classical Persian or Chinese Rugs. Gulistan-De Lux Rugs are made of the choicest woolen yarns, the same type that has given genuine Orientals their century old tradition for durability.

9x12 ft. Size \$150.00

Characteristic Edisonian Replies Mark Interview

Famous Inventor Whose Formula for Happiness Is Work Says People Are Just Beginning To Suspect How To Live

(Editor's Note:—This is the second article based on an interview with Thomas A. Edison at his laboratory in Florida where he is conducting scientific experiments.)

BY JAMES L. KILGALLEN.
(Copyright, 1936, by T. N. S.)
FORT MYERS, Fla., Feb. 10.—Thomas A. Edison believes man uses only a very small part of his brain. He thinks people are "just beginning to suspect" how to live. He does not know whether human beings exist on other planets. His formula for happiness is "work."

He believes the standard of living in America will be very much higher, eventually.

He has never been "thrilled" by any of his great achievements. The world renowned inventor, interviewed today at his laboratory here where he is making intensive research work on rubber-producing plants, gave interesting and characteristically Edisonian replies to a barrage of questions which were asked him.

"What was the hardest job you ever encountered?" Mr. Edison was asked.

"Rubber job tough. This rubber experiment job is the toughest."

When a Child is FEVERISH, CROSS, UPSET

Colic, gas, sour belching, frequent vomiting, feverishness, in babies and children generally show food is souring in the little digestive tract.

When these symptoms appear give baby a teaspoonful of Phillips' Milk of Magnesia. Add it to the first bottle of food to the morning. Older children should be given a tablespoonful in a glass of water. This will comfort the child—make his stomach and bowels easy. In five minutes he is comfortable, happy. It will soothe the bowels free of all sour, indigestible food. It opens the bowels in constipation, colds, children's ailments.

Children take it readily because it is palatable, pleasant-tasting.

Learn its many uses for mother and child. Write for the interesting book, "Useful Information." Address The Phillips Co., 117 Hudson St., New York, N. Y. It will be sent FREE.

In buying, be sure to get genuine Phillips' Milk of Magnesia. Doctors have prescribed it for over 50 years. "Milk of Magnesia" has been the U. S. Registered Trade Mark of The Chas. H. Phillips Chemical Co., and its predecessor, Chas. H. Phillips, since 1873.—Adv.

into something else. An inventor has theories. He tries them out, experiments with this, that and the other thing. Some things work, others do not. We cannot see ahead; that is why we have to keep experimenting, improving on things as we go along."

And Edison, still experimenting on ways to benefit mankind, turned to his work bench.

(Editor's Note:—In the third and concluding article of this series, Mr. Edison will discuss economic conditions in the United States and give his views as to the future.)

Swiftest, Easiest Way to End Bilious Spell

When you neglect those first symptoms of constipation—bad breath, coated tongue, listlessness, the whole system soon suffers. Appetite lags. Digestion slows up. You become headachy, dizzy, bilious.

It's easy to correct sluggish bowel action! Take a candy Cascarets tonight. See how quickly—and pleasantly—the bowels are activated. All the souring waste is gently propelled from the system. Regular and complete bowel action is restored.

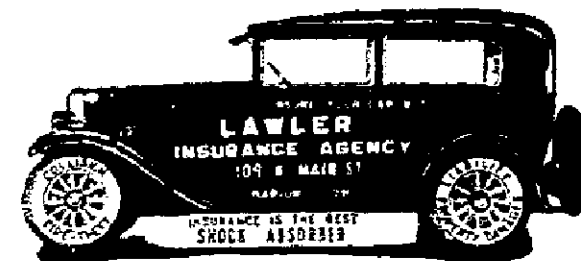

Cascarets are made from pure cascarin, a substance which doctors agree actually strengthens bowel muscles. All drug stores have Cascarets. 10c.—Adv.

Questions the Wisdom of ever paying more for any car

Its rich appointment and appearance; its outstanding performance, remarkable economy and its pride of ownership, in every particular of motor car satisfaction, questions the wisdom of ever paying more for any car.

It is a question that motordom is everywhere asking. It is revealed in hosts of new owners turning to Hudson from every size and price field. It is confirmed in the most spontaneous welcome ever extended an eight-cylinder car.

This is the car which all Hudson's past

achievements are set aside to produce. That fact alone speaks for a remarkable development. When you see and ride in it you will understand that an entirely new standard of motor value has been established.

It genuinely questions the wisdom of paying more for any car.

COOKING WITH THE ELECTRIC RANGE

4,000,000 Homes Now Cook Electrically.

New Low Rates Now Effective.

The simple fact that over 4,000,000 people rely entirely upon the Electric Range every day of the year for the food cooked in their homes is conclusive proof of its value as a practical means of cooking foods.

Electric Cooking is not expensive, altho this view is still wrongly held by many people. The new "Hot Point" Electric Range with the famous non deductible closed "calrod" unit is 29% Faster and more efficient than any unit so far designed by the industry.

New low rate schedule now in effect on our lines for electric cooking result in competitive cost comparisons with ordinary forms of fuel.

The average monthly bill for a family of four that use a modern electric range is between \$3.50 and \$4.00 per month. (An actual installation made

here in Marion in January of this year shows even better cost comparisons—name upon request).

The U. S. Dept. of Labor—visiting 11,793 wage earners in 92 cities states that the average family spends annually \$59.93 per year for cooking fuel. Obviously, the cost of cooking electrically is well within this figure.

Electric cookery brings the modern touch to the kitchen—cleanliness—economy—convenience—Easier. Better cookery with less time in the kitchen.

Control of Temperature and of Time—with an efficient Electric Timer which permits you to place a whole dinner in the oven, leave the house for hours and when you return find the dinner done and piping hot, ready to serve.

COLLEGE DEBATERS STAGE CONTEST HERE

Armament Question Argued
by Kentucky and Ohio
Teams

Whether in complete disarmament or in continued armament, the key to world peace is the primary subject dealt with by debate teams from Asbury college, Wellesville, Ky., and Ohio Wesleyan university, Delaware, in an interesting battle of words in the assembly hall of Harding high school last night.

A crowd of approximately 100 persons heard the argumentation of the two teams on the question: "Resolved: that the nations should adopt a plan of complete disarmament, excepting such forces as are needed for police purposes."

Elmer Overmyer, of Asbury, opened the speeches for the affirmative. He was followed by James Coultrap, Ohio

Wesleyan, negative. Stanley Lowell, Asbury, again took up the affirmative side of the question, to be followed by Richard Freeman, Wesleyan student, whose negative arguments ended the constructive talks of the debate. Both speakers on each team gave rebuttals.

Professor W. R. Dorn, Ohio Wesleyan university, presided. There were no judges and no decision was given on the merits of the debating ritual.

The new Chrysler-built De Soto Straight Eight, offered at a base price of \$965 (f.o.b. Detroit), is proving the dominant value in the field of low-priced cars. Neither America nor Europe ever before produced so fine an eight at so low a price. It was the sensation of the New York Automobile Show. In performance that results from serene, smooth power delivered by a superbly-designed engine—in distinction of design, beauty of appointments and riding comfort—the De Soto Straight Eight possesses an even greater margin of superiority than that which made its triumphant companion car, the De Soto Six, the largest-selling first-year car in the history of the industry.

OHIOANS BAFFLED BY THREE MYSTERIES

"Standing Still" for Week as Authorities Seek To Pierce Veil

Continued from Page One. Of O'Neill's "Little Boy Blue" who vanished so mysteriously just two days after Christmas, more than a year ago.

Two men, Elias Arnold and his son, Arthur, have served sentences in prison for child-stealing in connection with the case. They were later released and acquitted.

Two other men, Charles Hannah and Earl Connel, are now being held for questioning. Officials are finally of the belief that the little boy was kidnapped, but the killer and the location of the body still remain a mystery.

Crawford County Searched Crawford county has been stirred to the depths over the missing Lola Long. The girl was expected to return to her home last Monday, her eighteenth birthday anniversary, but the hope still has failed to materialize.

She had been employed at the home of Al F. Hoff as housekeeper and governess for the Hoff children. Hoff insists that he does not know where the girl is, and denies any knowledge whatever as to her disappearance.

She had been employed at the home of Al F. Hoff as housekeeper and governess for the Hoff children. Hoff insists that he does not know where the girl is, and denies any knowledge whatever as to her disappearance.

Many complications have entered into the case, and authorities are baffled, and are groping in the dark for some explanation for her disappearance, she has been missing 35 days.

The facts surrounding the disappearance of Michael Kovalchick are less clear. The boy was informed the day of his disappearance that he had been expelled from Ohio university because of delinquency in his grades.

He had been on "probation" the previous semester, because of low grades, and failed to make the required standard to remain in school, officials of the university say.

Drag Hoarding River The youth left his rooming house Tuesday night without hat or coat although the weather was cold and there was snow on the ground, according to his room mate, Michael O'Connor, also of Campbell.

The Hoarding river and the surrounding section have been thoroughly searched and searched for the boy's body in the belief that he committed suicide. The seven days' search has revealed no clues, however, and Ohio has been confronted by another mystery.

MAN FOUND ALONG TRACKS NEAR LA RUE

Big Four Train Crew Picks Up Aged Veteran Enroute to Dayton

LA RUE, Feb. 19.—John L. Watson, whose home is believed to be either in Youngstown or Dayton, was found by a Big Four train crew lying beside the railroad tracks, one and one-half miles east of here, about 7 o'clock this morning.

He was found to be in a dazed condition. An examination by Dr. Donald Stora and Dr. J. M. Buckman disclosed a fractured shoulder, blade and one of his arms badly bruised. Later he was removed to Marion City hospital in the Ford ambulance. The man was unable to tell how he came to be there.

The man appeared to be past 70 years of age. It is believed he was enroute from Youngstown to Dayton and had alighted from the train at Marion and started to walk to Dayton. He claimed to be a Spanish war veteran. A ticket to Dayton and a small amount of money, together with papers, disclosing his identity, were found in his pocket.

Funeral services will be held at 2 o'clock Thursday afternoon at the Schaffner Queen funeral home, 1305 Center st., in charge of the Rev. Mr. Byrd, of Zion Baptist church. Burial will be made in Marion cemetery.

GRILL HANNAH FOR MORE INFORMATION

Prosecutors Subject Him to Unmerciful Quizzing; Will Be Continued

Continued from Page One. "I don't know a thing," Hannah, almost defiantly, told the "third confessions" in which he said that the body of Michael Hoff had been taken from the temporary grave in the rear yard of what was then his home at O'Neill and was returned near a bridge along Sugar Creek, several miles from the town. Hannah declared, made the removal and the second trial.

Questioning Fruitless As yet the prosecutors' original search for the reported second grave of little Lola Long, Hannah said, and county officials, as well as hundreds of citizens on a "wild goose chase" Monday, to the rear of his former home, and officials do not want recurrence. They want to break down the stories of both Hannah and Connel, since what they have are the true confessions of each, and then find the body.

The task of steering Hannah down until he "breaks" has been fruitless so far. Officials will again concentrate on Connel today, they said.

A vain attempt to make Connel talk was also made by George Hoff, brother of Connel's, but again the "iron man" answered, "I don't know."

What action the investigators will take regarding the reported statement which Connel is said to have made to Mrs. Sykes had not been decided.

SAMUEL SCRIBNER CLAIMED BY DEATH

Passes Away at Home of Son; Was 88 Years of Age

Samuel Scribner, 88, former teamster, died at 9:55 o'clock this morning at the home of his son, Samuel J. Scribner, 2001 N. Main st., and Campbell st. Since last April Mr. Scribner had been ailing and died of the infirmities of age.

He was born May 1, 1842, in Detroit, in Harvey S. and Mildred Scribner. On May 19, 1905, he was married in this city to Harriet A. Salt, who preceded him in death on Feb. 21, 1923.

Surviving sons are Joseph Scribner, Gibson, William Scribner, London, Ohio; Frank Scribner and Paul Scribner, Chicago; Samuel J. Scribner, at whose home he died, Al Scribner, Hazen Ark.; Bert Scribner, Richmond, Ill. Two daughters and three sons are dead.

The body will be taken to the home Thursday morning, from the Schaffner Queen funeral home. Funeral arrangements have not been made.

BUY INTEREST MARYSVILLE, Feb. 19.—Mr. and Mrs. Ralph Lambel has purchased a half interest in the Ames & Co. meat market and will both be associated in the business after Mar. 1. Mrs. Lambel has been bookkeeper in the meat market for the past years, resigning last fall to accompany Mr. Lambel to California.

21 BLIND YEARS PIERCE DARKNESS

Schall Wouldn't Trade Understanding for 'All of World's Eyes

Continued from Page One. My child, I had to live a blind man's hard years only when he sleeps, since he must feel with it and see with it over on guard, alert, for the little blind thing that will guide him to the conclusion that he must have in order to cope with the seeing.

"After 21 years of darkness, I wouldn't trade the understanding that has come to me for all the eyes in the world," he said. "I entered the forest of darkness unaided, unguided, grasping, selfish. I came out of that darkness when understanding became my sight, when I learned to be self-sufficient, when I had grasped the meaning that the thing was done for love of the cause and not for self-aggrandizement."

He was blinded by an electric shock he suffered at the age of 30.

TAXES DISCUSSED AT DISTRICT MEET

Industrial Commission Probe Also Before Manufacturers' Meeting Here Today

Continued from Page One. The discussion at this question night (to be understood that Ohio Chamber of Commerce officials will be asked to explain the purpose of their investigation).

Two high officials of the Ohio Chamber were to be here today. They are Frank H. McMillan, of Mt. Gilard, president, and George B. Chandler, of Columbus, secretary. Officials of the industrial commission also were to be present. Among them were Wellington T. Leonard, chairman, E. L. Davis, secretary and Ed Van Horn, special investigator for the commission.

Mr. Leonard, former attorney for the commission, and J. E. Webster, executive secretary of the Ohio Manufacturers' club, were to be present.

One of the chief features of the luncheon entertainment was a group of solos by Robert Swisher, member of the city's orchestra.

"Dance was to take immediately following the luncheon. His tone as announced this morning was, "operation of the Farmer, Industry and the Public."

Members of the traffic division of the association and of the board of directors were held this morning preceding the luncheon.

The Central Ohio Manufacturers' association includes Ashland, Crawford, Delaware, Hamilton, Knox, Logan, Marion, Morrow, Rushland, Seneca, Wayne and Wayne counties.

P. M. Ohio Manufacturers' president of the association, was to preside at the meeting this afternoon.

"Disraeli" To Be Shown as Club-Benefit Tonight Thursday, chairman and leader of men, wrote 1900 face letters, according to historical facts found when the life of this great man was carefully studied before it was put on the screen with George Allen in the leading role.

Tonight and Thursday, this picture, comedy by the best critics in the United States to be one of the really fine pictures of the year, will be shown at the Marion theater under the auspices of the Marion County Federation of Women's clubs.

Supporting Mr. Allen in this picture, educational, historical, romantic, and entertaining are John Bennett, Florence Allen, the stars with David Torrence, Boris Lloyd, Anthony Bushell, Ivan Simpson, Margaret Mann, Gladys Logan, Henry Carroll, Norman Cannon, Michael Carruth, and Charles J. Evans.

Smallpox Case Listed in Pleasant Township Clifford Russell, 37, of Pleasant township, is confined to his home with smallpox, according to a report made to the office of the county health commissioner today.

Only three families in the county are now under quarantine for smallpox, according to Dr. N. S. Hill, county health commissioner.

FINES VIOLATOR UPPER SANDUSKY, Feb. 19.—William Warfel, of near this city, was given a fine of \$10 and costs in court of Justice P. T. Widger on a charge of violating the law in allowing his dog to loose between sunset and sunrise. The charge against him was filed by W. W. Schneider, county dog warden.

Enraged Husband Kills Wife in Street Quarrel CHICAGO, Feb. 19.—An enraged husband shot and killed his wife as she was shopping on of her small children on the street here today and then inflicted a probably fatal bullet wound in himself.

The woman, Mrs. Mary McIntosh, 27, was killed instantly with a bullet in her heart. The husband, John, 33, shot himself near the heart and was reported dying. The babies were uninjured.

Delatowski accused his wife, who was estranged from him, of going with other men and a bitter quarrel followed when she refused to return to live with him.

GIVEN PROBATION

Young Woman Who Slew Husband Given Leniency

MADISON, Wis., Feb. 19.—Mrs. Margaret Delight, 21, held on a first degree murder charge for killing her husband in a Christmas day quarrel pleaded guilty to an attempted manslaughter charge and today began four years' strict probation.

The lesser charge was the result of doctors' testimony that the young slayer was soon to become a mother and that the shooting occurred while the woman was under nervous strain.

Judge S. B. Scheen, who sentenced Mrs. Schlicht yesterday, stated that the woman was not a criminal and should be given an opportunity to resume a normal place in society.

PRESENT PROGRAM AT GRANGE MEET

Progressive Group Discusses History of County Organization

Four applications were submitted and one recommendation was presented at the meeting of members of Progressive grange No. 2115, last night at their hall southeast of the city. A lengthy discussion of the history of the grange in Marion county was held after which W. T. Owen gave a short talk urging all subordinate grange members to take the fifth and sixth degrees. The fifth degree will be given at the next meeting to be held in Marion this year. It was voted to send the lecturer, Mrs. W. T. Owen, to the lecturers short course to be held in Columbus next week.

A song "America" opened the program hour and Mrs. F. M. Potholoff contributed a reading, "The Future," a trio, composed of C. W. Pether, W. T. Owen and W. T. Owen, sang "Old Glory" and Miss Ruth Dullinger gave a reading, "Life of Abraham Lincoln." A piano solo, "Patricide Medley," was played by Miss Martha Kaufman and Lutescent.

The following address was delivered by Mrs. W. T. Owen, "Our First President," was the title of a reading by Mrs. Willie Gruber and the program concluded with a song by the trio "America the Beautiful."

These programs will be presented in the future were outlined by the lecturer, Mrs. W. T. Owen. C. W. Pether, Lelloy Light and LeRoy Mack were named a committee in charge of plans for the presentation of the program by the group. Mrs. A. J. Clark, Mrs. F. M. Potholoff and Miss Willie Gruber, the women's program, and Miss Gertrude Olson, Miss Alma Clark and Emerson Duthie for the young people's program.

The next meeting will be in two weeks when the first and second degrees will be conferred.

LONDON CONFERENCE DELAYED ONE WEEK

Parley Adjourned in Hopes French Delegates Will Be Returned

LONDON, Feb. 19.—Crushed by the absence of France from the negotiations, the five-power peace conference was adjourned this afternoon for one week.

The parley was put off until next Wednesday in the hope that by that time France will have chosen a new government to succeed that of M. Andre Tardieu, and be able to send her delegates back to continue the work of the disarmament conference.

The conference had been virtually at a standstill since M. Tardieu was forced out of office Monday by his opponents in the French chamber of deputies.

Decision to adjourn the conference was reached following conversations between the chief delegates of the United States, Great Britain, Italy and Japan, which have been left in charge on the work of the parley in the absence of the French delegates.

It was decided that no forward steps could be taken with one of the powers completely out of the picture, particularly as the disarmament negotiations in their present stage hinge entirely upon the tonnage demands of France.

PLAY IS PRESENTED AT CLASS MEETING

Searchlight Club Provides Entertainment at Baptist Church

There was an attendance of 110 at a monthly meeting of the C. I. C. class of Trinity Baptist church last night in the church parlors. Presiding the meeting, a potluck supper was served at 6:30 o'clock.

Members of the Searchlight club, to which Mrs. H. F. Potholoff, a C. I. C. member, belongs, were guests of the class and presented a play, "Wanted: A Cook." Those taking part were: Mrs. Potholoff, lady in search of a cook, Mrs. C. F. Davidson, an Irish girl, Mrs. E. G. Roberts, a German girl, Mrs. A. L. Surface, a Negro, Mrs. O. A. Wheaton, an American cook, Mrs. A. N. Grimes, a Chinaman, and Mrs. Harry Smith, a Norwegian girl.

A radio program of "Amos 'n' Andy" was put on by Lloyd LeRoy (a. "Amos," LeRoy Schneider, a. "Andy," Charles Potholoff as the violinist who plays the theme song, and Dale Gorman, announcing as Bill Hayes, Master Gun Roberts, five-year-old soloist, sang "At the Cross," Mrs. Margaret Duffly was at the piano.

Mrs. A. A. H. Koons, accompanist, and Jane Koons, saxophonist, gave two numbers, "I Sole Mio" and "McLody in F."

In a business session W. Porter Hagen, president, spoke on promoting the growth of the class. F. H. LeFebvre, secretary, reported of the Sunday school, spoke on the Sunday school attendance and membership contest. Russell Wilhelm presented Mrs. Z. J. Davis with a gift, by appreciation of her work in the class.

PLAN SURPRISE MEETINGS, Feb. 19.—A birthday surprise was arranged by Mr. and Mrs. Carl Schlicht, honoring their son Perry on the occasion of his ninth birthday Saturday afternoon. Guests present were Charles Kountz, Jack Nott, Robert and William Hutton, Richard Hoot, Robert Lutz and Louie H. Hunter.

A citizen of Alliance, in this state, who,

burgh.

Of the approximately 5,000 gold star
mothers who have signified their intention
of being members of the government's pil-
grimage to Europe, 1,346 are from New York
state. It must be that the troops of the Em-
pire state took a far more active part in the
World war than we were led to believe by
such reports of the engagements as came

"Involuntary Homicide."

If a bill introduced in the New York state
legislature by Senator Caleb B. Baumes and
Assemblyman Burton D. Esmont, chairman
and vice chairman, respectively, of the state
crime commission, is enacted into a law, that
state will have an absolutely new crime—
"involuntary homicide."

The introduction of the bill, which is de-
signed to facilitate the conviction and pun-
ishment of persons causing death to others
through negligent operation of automobiles,
was prompted by the reluctance shown by
grand juries to indict and by petit juries to
convict persons charged with manslaughter
as a result of the negligent operation of
motor cars in cases where criminal intent
could not be shown.

Such deaths have increased year by year
in New York state and the annual toll has
reached staggering proportions. A statement
made by the state crime commission shows
that 1,926 persons were killed in automobile
accidents in the state in 1929, and that 2,049
of them were pedestrians, an increase of 322
such cases over the preceding year. "This,"
the statement reads, "shows the need of the
proposed legislation and its rigorous enforce-
ment. Persons driving automobiles should be
made to realize that they can not ruthlessly
run down and kill innocent pedestrians with-
out being brought to justice."

The bill, which carries a penalty of im-
prisonment for a term not exceeding five
years and a fine not exceeding \$1,000, or both,
leaves the question of culpable neglig-
ence to the jury and is not made dependent
on the rate of motor speed fixed by statute.

While most motorists—the overwhelming
majority—are careful not to take any life,
either human or animal—there are some—
comparatively few—who are negligent, reck-
less and seemingly indifferent to what the
consequence of their careless driving may be.
There might well be such a law in every state
as this proposed in New York for the pun-
ishment of these potential killers. The jury
has the right, under the terms of this pro-
posed law, to weigh the question of culpable
negligence, and any jury may be trusted to
determine the matter of negligence fairly in
any case where the accused is not guilty of
negligence or where the culpable neglig-
ence is on the part of the pedestrian. As any one
who has watched traffic lines knows, the of-
fenders against traffic laws are not all motor-
ists. As a matter of fact, as many pedestrians
as motorists are guilty of negligence and are
responsible for a fair share of the traffic ac-
cidents which occur from day to day.

Menly Man and Able Diplomat.

Alexander P. Moore made as many warm
friends and friendly acquaintances here dur-
ing the presidential campaign of 1920 that
the news of his death out in Los Angeles,
Monday afternoon, was received much as
would have been that of a one-time dis-
united and highly-esteemed fellow-town-
man. That his hope of retaining his shat-
tered health in the balmy air of California
had proved a vain one brought deep regret
to his acquaintances here, while those who
knew him as a treasured friend were moved
by a feeling of profound sorrow.

The life of Alex. Moore, as he was known
to his intimates, was a very full one, and
should prove an inspiration to any lad am-
bitious to achieve beyond the ordinary.
Studying at night and at odd daylight hours
after passing part way through the grade
schools of Pittsburgh, at twelve he became
office boy in the plant of the Telegram, of
that city. Working in succession on the
Chronicle-Telegram, the Press and the
Leader, he rose steadily till he became an
editor and finally publisher of the last named
paper while yet in the prime of life.

In 1923, two years after the great sorrow
which came to him in the death of his bril-
liant, loving and helpful wife, Miss Russell,
to whom he was a most devoted husband and
loving memory of whom he took with him as
he passed into the shadow of death, Mr.
Moore was named by President Harding as
ambassador to Spain. In Madrid he achieved
with great distinction, bringing Spain and
the United States into more friendly relations
than had ever existed between them pre-
viously. It is a generally-admitted fact in
official circles that this self-educated lad, who
developed into the frank, clear, honest,
manly man sent to Madrid, proved the ablest
and most successful diplomat ever sent to the
court of Castile and Aragon from the United
States. There he was esteemed by all for
the high-class gentleman that he was. He
was signally honored by the king and queen,
who accepted him as a friend, and a favorite
with the queen mother, and when he resigned
there was general regret. In departing from
Madrid, he found the then premier, Primo
de Rivera, and the entire cabinet assembled
at the station as a mark of regard and esteem,
and he was given a spontaneous farewell by
all the members of the diplomatic corps and
hundreds of citizens as well as the high of-
ficials of Spain.

As ambassador to Peru as the representa-
tive of President Coolidge, who had accepted
his resignation as ambassador to Madrid with
regret, he succeeded where so many had
failed, in bringing an agreement between
Peru and Chile in settlement of the Tacna-
Arica boundary dispute by following the same
frank, outspoken course which brought him
into favor at Madrid, and did much to
strengthen friendly relations between those
countries and the United States. At the time
the settlement of the Chile-Peruvian boundary
matter was attained, President Logan, of
Peru, paid him this tribute: "The reconcilia-
tion of Peru and Chile through the Tacna-
Arica agreement was largely due to Mr.
Moore's statesmanship."

And when the Polling post was raised to
an embassy, President Hoover, personally ac-
quainted with his high worth, named Alex-
ander Moore as the first United States am-
bassador to that country.

Something like nine years ago, when all
the others about the table at a rather elab-
orate dinner party were partaking of wine,
Alex. Moore was asked why it was that he
never under any circumstances touched
wines or liquors. His answer was: "I haven't
any special scruples about drinking, but when
I was a small lad I promised my mother that
I never would touch liquor, and I have
scruples about keeping that promise."

Perhaps no better insight into the real
character of the man who was selected by
three presidents to represent them as their
ambassadors may be had than is given in this
story of the man who made and kept his boy-
hood promise to his mother.

Governor Fairbank, of Connecticut, is re-
ported to be recovering splendidly from the
injuries sustained by him in the crash in
which he figured when attempting to fly a
glider. Wouldn't you just naturally assume
that the governor of a state of the intel-
lectually-developed East would know too
much to monkey with a glider?

The Rex, the new liner to be built by Italy
as an answer to the German speed marvel,
Bremen, is to be a 47,000-ton vessel capable
of maintaining a speed of twenty-seven knots
an hour. Another entrant in the race for
speed and bigness.

The Tardieu cabinet crashed on a proposed
law to tax wives engaged in business with
their husbands. Nothing more quickly pro-
duces a cabinet crash in France than a tax
proposal, the French being sensitive in the
extreme when it comes to talk of letting go
of their coin.

Little fault can be found with the findings
of the authorities of Anderson, South Caro-
lina, that a negro down there, who ate nine
cents of sardines, several boxes of soda
crackers, a generous helping of spaghetti and
a quart of milk at a meal which but shortly
preceded his death, died of acute indigestion.

The fifty youths attending college up in
Albion, Michigan, who engaged in rioting up
there a few nights ago, were fined and paid
costs of five dollars each, the sum total of
their fines being, little compared with the
property they destroyed. Some day, some
court will give rioting students something in
the way of punishment more severe than a
fine on the wrist.

A temperature of forty-one degrees below
zero was registered in New York state, Sun-
day night. There's this to be said for the
glorious weather we enjoy out here in the
very heart of the garden spot of the world;
it is always dependable and never goes to ex-
tremes of either heat or cold; just warm
enough seven months of the year to be
thoroughly pleasurable and cool enough the
other five to be invigorating.

THE INDOOR SPORT OF GENEVA.

After Influenza—What?

BY ROYAL S. COPELAND, M. D.

At this season of the year colds, influenza and
pneumonia are usually rampant.

The fact is, after the strenuous winter months,
with the keeping of late hours and the active in-
terests of business and pleasure, the vitality is
lowered. There is a general state of tiredness
and debility of the system. The resistance to
disease is lessened.

This is an opportune time for the influenza
germ to get busy. Of course, we always have
these germs with us. In every community there
will be occasional cases of the disease, or even a
more or less severe epidemic.

For those who are recovering from an attack
of this disease, great precaution should be taken
not to have a relapse. This is apt to be a serious
thing. Pneumonia, hundreds of cases every year,
follows influenza.

It is difficult to get up from influenza. Even
after a slight attack, where there has been only
a short duration of fever, there is great physical
weakness. This is due to unstable condition of
the nervous system produced by the disease. It
takes time to get back your old vigor.

Among the precautions it is essential that the
house be kept warm. Be extravagant with the
heat for the time being. Have plenty of ventila-
tion, but do not sit or lie in drafts.

There are three other things which are indispen-
sable to complete recovery from the effects of in-
fluenza. They are sunshine, fresh air and proper
food.

In most parts of the country at this time of
the year our hours of sunshine are limited. Plan
so as to avail yourself of every bit of sunshine
you can get. Be out in it for two hours, around
noon, when the sun is at the highest. Of
course, if it is too cold, it will not be possible
to stay outdoors for so long a time.

Science seems to find a way to meet every ob-
stacle on the path to good health. Now we have
the ultra-violet lamp. These regular use gives new
energy and life to the tissues through the life-giv-
ing ultra-violet rays, which are really sunshine. If
you can avail yourself of these treatments through
your doctor, well and good.

Then there are certain kinds of window-glass
which transmit the ultra-violet rays of the sun,
which the ordinary window glass does not do. Per-
haps the time is not far off when our homes and
business places will be equipped with this kind of
window glass. Recent investigations and experi-
ments have proved the efficacy of these indoors as
a means of admitting all the rays of sunshine. As
time goes on we shall know more about them.

Get all the fresh air possible. Not only be out-
doors all day, but sleep with all the windows
open and be warmly covered. Restful sleep and
rest help greatly in your recovery.

Simple food should be your diet during con-
valescence—plenty of milk and fresh eggs are de-
sirable. Adding a teaspoonful of gelatine to the
milk does much to increase its food value.

In these days people take too little time to re-
cover their health and strength. Ambition may of-
tentimes be misplaced in this regard. If you get
up too soon you may have a relapse, and that you
do not want. Do not run the risk of this, but take
time for full recovery before you venture forth seek-
ing new worlds to conquer.

ANSWERS TO HEALTH QUERIES

D. C. Q.—My baby of eight months tosses about
in his sleep and prefers lying on his stomach to
the greater part of the time—could this be due to
worms? What treatment would be advisable under
these circumstances?

A.—May be due to intestinal worms or consti-
pation. Examination of the stool will determine
whether or not the parasites are causing the trouble. (Copyright, 1930, Newspaper Feature Ser-
vice, Inc.)

Editorial Comment.

AS TO AMERICAN CULTURE.

Americans, in this year of 1930, may take heart
of grace. Their period of cultural probation
among the nations, it appears, is past. The
United States has attained its majority, in artistic
appreciation, if not in artistic production.

Several signs point to this arrival. Abel War-
shawsky returned to New York from Europe re-
cently. He is an American artist who has lived for
the last twenty years in Paris. In a newspaper
interview he couched some of his discoveries:

"America is vastly more artistic in appreciation
than a dozen years ago."

"The average American middle-class home is fur-
nished in better taste than its counterpart in Paris."
"Americans buy pictures now because they love
them; foreign collectors buy them as an invest-
ment to sell for more money later to Americans."

"It is the Europeans, rather than the Ameri-
cans, who are commercial in matters of art."
"But Mr. Warshawsky is, after all, an American,
and his statements are generalizations. Perhaps
he exaggerates a little; having found by residence
in Europe that Europeans, after all, are human,
and not the rare and exquisite creatures they had
been pictured by American critics of America."

For America's severest critics have been, not
the visiting foreigners, but some of her own sons.
So often have these vociferous iconoclasts told their
fellow-countrymen, they were jaded that the discus-
sion, of course, became universally accepted. Almost
any American was ready to admit, without argu-
ment, that, in matters of intellect or art, the best
the United States could produce was not worthy to
be mentioned in the same breath with Europe's
best.

But the thing was a little overdue. Even the
pleasure of being humble may pall. Besides, the
suspicion grew that perhaps the critics were
neither entirely competent nor wholly disinter-
ested. Calmer voices came to be heard. Now,
the youngest generation is turning its ridicule
against the scoffers, its elders. There was always
of course, a minority of sane persons who knew
that the circus eventually would fold its tents
and steal away. But now that the youngest genera-
tion has arrived to subject the old to its cool gaze, the
clowns' time obviously has elapsed.

The outcome can only be beneficial. The pun-
ishment that America suffered was salutary. It
was helpful the country to grow culturally through
realizing its limitations. Now that stage is past.
The revolutionary artists and the image-breaking
critics will both be viewed dispassionately and in
perspective. The nation is artistically awake. The
time is ripe for production of artists.—Christina

ADMINISTRATION IGNORED.

At the University of Cincinnati Dr. Howard L.
McBain, Ruggles professor of law at Columbia
university, addressed a session of the business and
professional men's group. Among other things of
interest, Dr. McBain said that constitutional prob-
lems of the modern state are assumed to be of
more import, and more certainly predominate over
even the gravest of administrative problems. For
example:

"The policy of the eighteenth amendment as
such commands infinitely more attention in the
United States than the legislative and administra-
tive problems connected with farm relief or the
regulation of railroads."

The tariff, soldiers' relief, immigration, the
menacing unemployment situation, foreign rela-
tions, the needs of the navy, the army—all these
must give way to all-absorbing demands for probi-
tionary policy discussion. The senate and house
of the United States during the past week, with
consistent disregard for the interests of pressing
legislation, have been obsessed by this agitation,
examination and discussion of a problem whose
angles seem to be increasingly numerous and more
eminently threatening to the structure of our demo-
cratic form of government."

Out of this most of frenetic struggle the nation
must look for deliverance to that body of the
people, both woe and dry, which has not wholly
succumbed to the remorseless pressure of extreme
views of fanatical forces—to the sober and tem-
perate-minded citizenship of the nation. These
must constitute a majority of the citizenry. In
the face of facts, developed and developing, this
citizenry surely must come to a realization that
real temperance, reasonably enforced, is far pre-
ferable to present conditions. —Cincinnati En-
quirer.

A Missing Planet.

BY ARCHIBALD HENDERSON.

A systematic search, inaugurated at the
beginning of the last century, to discover
some hypothetical planet in the great void
between Mars and Jupiter, led astronomers
to astonishing results. This was the dis-
covery, not of a single large planet, but of
hundreds of small bodies known as asteroids.
The first of the asteroids, later given the name
Ceres, was observed by Piazzi at Palermo
on January 1, 1801, by Von Zach at Göttingen
on December 31, 1801, and by Olbers at Bro-
men on January 7, 1802. This little planet,
which is only 49 miles in diameter, held the
center of the stage for only a short time—
although, for that time, it was a "bright,
particular star." Soon afterwards Olbers dis-
covered Pallas, another little planet, or
asteroid, as it was called, even smaller than
Ceres, being only 30 miles in diameter. Cer-
es was displaced from her stellar role as a
solitary tenant of the vast gap; and Olbers
advanced the daring theory, as stated in his
own words, that both Ceres and Pallas were
discovered planets, not "fragments of a pri-
mitive planet," but planets blown to pieces
in the remote past, either by the action of
chemical forces or by the impact of a comet.

This theory soon found support in the dis-
covery of two more asteroids, Juno and Vesta,
129 and 250 miles in diameter, respectively.
To date more than 1,500 asteroids have been
discovered; and there is little doubt that im-
proved methods of photography will bring
other asteroids to light in the future.

According to Bode's Law, a planet was pre-
dicted at a distance from the sun of 2.3 times
the distance of the earth from the sun. Compu-
tation now shows an approximate verifica-
tion of this prophecy, the distance of the cen-
ter of gravity of the asteroids from the sun
being, not 2.3, but 2.65 times the distance
of the earth from the sun. Another extra-
ordinary agreement has been found. The orbit
of the supposed planet, predicted by
Bode's Law to exist between Mars and Jupiter,
has been computed. This orbit is in al-
most exact agreement with the average com-
puted orbit of all the asteroids.

The a priori method for discovering aster-
oids was the making charts of the stars in re-
gions near the ecliptic plane, and then com-
pare them with star-maps to see if any visitors
could be detected in the asteroidal region.
The present method is photographic and easy
to employ since a star registers on the pho-
tographic plate as a dot, and an asteroid
passing between us and the star leaves a
"trail," which identifies it as an asteroid.

Manager—"I'm afraid you are ignoring our
efficiency system, Smith."

Smith—"Perhaps so, sir, but somebody has
got to get the work done."

"Deacon White" asked Parson Jackson
softly, "will you lead us in prayer?"

There was no answer.

"Deacon White"—this time a little louder—
"will you lead?"

Still no response. Evidently the deacon
was slumbering. Parson Jackson made a
third appeal and raised his voice to a high
pitch that succeeded in arousing the drowsy
man.

"Deacon White, will you lead?"

The deacon in bewilderment rubbed his
heavy eyes, and announced:

"Lead yourself—I just dealt."

"What do you do?"

"I keep house, scrub, scour, bake, wash
dishes, cook, do the laundry, iron, sew."

And the census-taker listed her: "House-
wife—no occupation."

Chorus Girl, applying at bank—"I would

"Oh, I mean a charge account, as I have

Guest—"Waiter, there is a button in my

Waiter, one time printer—"Typographical
error, sir, it should be mutton."

Mother—"Why did you strike your little

Young Bobby—"Well, we were playing
Adam and Eve, and instead of tempting me
with the apple she ate it herself."

Thank You

That police response has proved that people for a week, now, and that they are growing more and more to know just what this play is all about. The play is a story of the machine around the world, or "K. W. K. H." as it is called. It is a story of the night from 1780 to 1785, as an inquisitive reporter goes about what "Thank You" really

is. The De Molay play, to be given from Tuesday and Wednesday at Central Junior High school.

BASKETS of red and white flowers lent an attractive color note to the party given last night by the S-same club at the home of Mrs. Virna Laubach, East Center st., in celebration of the annual guest day. Appointments in commemoration of Washington's birthday also predominated the tea served by the social committee including Mrs. E. A. Schultz, Mrs. M. A. Nickley and Mrs. W. W. Jack.

The guests were received by Mrs. Margaret Geron, president of the club. The program opened with two marimba selections by Miss Mary Gracely followed by two vocal numbers, "Birthdays," Woodman, and "Awakening," Sprays, by Mrs. Knott Dunlop, accompanied at the piano by Miss Elizabeth Pace. Miss Edith Keeler, an instructor in art among the Marion schools, gave two interesting exhibitions with her marionettes in two shows, "Dancing Dolls" and "The Gooseberry Handmaiden." Mrs. J. T. McNamara, president of the Marion County Federation of Women's clubs, gave an informal talk and the program closed with a group of marimba selections by Miss Gracely.

The guests were Mrs. Harry T. Gracely, Mrs. H. J. Ackerman, Mrs. John H. Clark, Mrs. C. F. Church, Mrs. Laura Donbush, Mrs. M. O. Keep Free
from
FAT
in excess; it's easy now

Modern science has found that excess fat is largely due to an under-active gland as you will, exercise as you will, you are bound to fail unless you correct the cause.

That gland, largely, controls nutrition. When it is weak, too much food goes to fat, too little to fuel and energy. So modern physicians, to increase energy, supply the gland substance which is scarce.

That is the method employed in Marmola prescription tablets, prepared by a famous medical laboratory. People have used them for 22 years—millions of boxes of them. Anybody, in any clime, can see what a change has come. Excess fat is disappearing fast. New youth and beauty, new health and vitality, are conspicuous everywhere.

If you are abnormal in your weight, a certain gland is abnormal. Try Marmola. Feed the factor lacking. Watch the pounds go, the new vitality return. You will be amazed and delighted. But the formula in each box of Marmola will tell you the reason. To people who know, there is no excess today for obesity. Start to remedy that ill condition now.

Marmola prescription tablets are sold by all druggists at \$1 a box. Any druggist who is out will gladly order for you.

Mothers' Class Organized as New
Feature of Epworth Sunday School

More Than 100 Women and Children Present at First Meeting; Officers Elected

THE aim of the Mothers' class, organized yesterday afternoon at Epworth M. E. church, is to help the mother in every way in the daily routine of being the ideal mother to her children, spiritually, mentally, and physically. There are 22 members enrolled.

Invitations were issued to all the children and their mothers, of both the cradle roll and kindergarten departments, to attend a mothers' party at the church yesterday. The result was a response of 70 children and about 50 mothers.

Officers Chosen
When the party was organized into a Mothers' class, later in the afternoon, Mrs. Howard Swink was elected permanent president and Mrs. R. A. Bryan, secretary. Miss Delma Hawley presided as temporary president and original sponsor of the class.

While the children were entertained with games led by Mrs. Howard Geer and songs led by Miss Lois Stodgrass, the mothers enjoyed a well arranged program over which Mrs. Frank Siffritt presided.

Mrs. Homer Waddell led a demonstration of paper folding as a means of amusing a child, in which all the mothers took part. Following this, Mrs. Carl Loeffler gave a chalk talk as it is used to bring things clearly to the child mind. The chalk picture is used to stress the high points of a story, according to Mrs. Loeffler.

Program Features
Mrs. Earl N. Hale, contralto, was heard in a group of three songs, after which Mrs. Geer and a group of the children gave a practical demonstration of children's games and Miss Stodgrass and another group sang several songs.

Mrs. J. E. Cliphant, teacher of the new class, gave a short talk, resulting in conclusion a discussion of what the ideal mother is.

The business meeting and program were closed with prayer by Mrs. Siffritt. After the meeting, the mothers and children were served refreshment by the officers of the two departments sponsoring the party.
